Belonging - Achieving - Growing

Dear Parents / Carers

While we strive to make school life excellent for your children, we know that there might be times when we fall short of that expectation. It is important to me that, on these occasions, we do everything possible to put things right. In the recent survey you answered the statement 'When I have raised concerns with the school they have been dealt with properly' in the following way:

This shows that 88% of you have either not raised concerns or agree that they have been dealt with properly. Please keep talking to school staff about any concerns you might have: catch the teacher at the end of the day, email/call or pop into the office, speak to an adult at the gates at the start of the day. We really do want the opportunity to get it right for your family.

Generally speaking, whilst Class Dojo is great for passing short, simple messages, it is not the best way to raise concerns.

SMARTPHONES...

Over recent weeks, I have communicated with a number of parents/carers who have concerns over children's use of smartphones. You may be interested to read the information held here: [Smartphone Free Childhood](#) which you could then use to open discussions in your parent forums. From a CJS viewpoint, pupils are only permitted to bring phones to school if they are travelling independently of an adult (although alternative tracking methods are available, e.g. the Apple AirTag). Pupils must hand in their phone at the start of the day and collect it at the end. During the day we are phone-free.

A MESSAGE TO PARENTS/CARERS—BICYCLE AND SCOOTER SAFETY

Please can we ask parents/carers to remind children to be safe when cycling and scooting to and from school. We have had incidents reported recently, where CJS pupils have had near misses with vehicles in and around the surrounding roads.

CELEBRATIONS AND ACHIEVEMENTS

JUDO COMPETITION

Congratulations to Hollie in 3SC for winning a silver medal in Judo in the under 25kg in the Samouri Judo competition in Southampton recently. What a fantastic achievement Hollie, well done!

GIRLS' FOOTBALL TOURNAMENT WINNERS

Congratulations to our Year 6 Girls football team who took part in a tournament at The Grange School on Wednesday, competing against five local schools.

Despite spite of the rain, the girls played brilliant football, displaying great determination and teamwork. They were unbeaten in all their matches, resulting in CJS winning the tournament. Fantastic girls, well done!

WHAT PARENTS NEED TO KNOW ABOUT TIKTOK

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to help an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one of many apps which we believe trusted adults should be aware of. Please visit www.nationalonlinesafety.com for further guides, hints and tips for adults.

What Parents & Carers Need to Know about TIKTOK

AGE RESTRICTION 13+
[certain features are restricted to over-18s only]

TikTok is a free social media platform that lets users create, share and watch short videos ranging anywhere from 15 seconds to 10 minutes in duration. The app gained notoriety for its viral dances, trends and celebrity cameos and can be a creative, fun platform for teens to enjoy. Now available in 75 languages, it has more than a billion active users worldwide (as of spring 2022) and is most popular with the under-18 age bracket. In fact, a 2022 Ofcom report found TikTok to be the most-used social media platform for posting content, particularly among young people aged 12 to 17.

WHAT ARE THE RISKS?

AGE-INAPPROPRIATE CONTENT

While TikTok's "Following" feed only displays videos from users someone follows, "For You" is a stream of clips based on their previously watched content. Most videos on a child's "For You" feed will therefore be light-hearted and amusing, but it could potentially surface something unsuitable. TikTok's guidelines prohibit the sharing of illegal or inappropriate content, but the sheer volume of uploads mean they aren't manually monitored and vetted.

IN-APP SPENDING

TikTok is free, but users have the option to buy TikTok coins, which can be used to purchase emojis in the app. These emojis are then sent as rewards (retaining their monetary value) to other users for videos they've created. Coin bundles range from £9.99 to an eye-watering £99; TikTok's policy is that they can't be bought by under-18s, but it's possible to bypass this with a fake birthdate.

ADDICTIVE NATURE

TikTok can be addictive, especially for young people: compulsive repeated use can interfere with sleep patterns and be a distraction from other activities. The platform recently introduced a default usage time limit of 30 and 100 minutes for new members under 18 (in the UK, children with TikTok average 102 minutes per day on the app), but these restrictions can easily be removed in the settings.

TIKTOK NOW

Introduced in late 2022, the 'TikTok Now' feature lets users post a daily video or photo at the exact same time as their friends. Users receive a synchronised notification at a random time of day, giving them three minutes to take a video or real-time photo. This addition can not only be a distraction to young people but could lead to them inadvertently sharing private content such as their location.

CONTACT WITH STRANGERS

With around 1.1 billion users globally, the potential for contact from strangers on TikTok is high – especially as accounts created by over-18s (or youngsters using a false date of birth) are set to public by default. This not only means that someone's profile is visible to everyone else on the app, it also lets their videos be suggested to others and enables anyone to comment on them or download them.

Advice for Parents & Carers

ENABLE FAMILY PAIRING

Family Pairing allows parents to link their TikTok account with their child's and control their settings remotely. Parents can then, for example, turn on Restricted Mode (reducing the chances of a child seeing inappropriate content); set screen time limits; and manage their child's ability to send messages (and to whom). Children can't alter these settings without parental approval.

MAKE ACCOUNTS PRIVATE

Although under-18s will have their TikTok account set to private by default, bypassing this setting is relatively easy. However, parents have the ability to manually set their child's account to private – meaning that their videos won't be visible to strangers and they won't be able to exchange messages with people who aren't on their friends list.

LIMIT IN-APP SPENDING

If your child is using an iPhone or Android device to access TikTok, you can alter the settings to prevent them from making in-app purchases. We'd recommend that you enable this feature, as it's quite easy for a young person – without realising what they're doing – to spend a significant amount of real money buying TikTok coins so they can unlock more features of the app.

DISCUSS THE DANGERS

If your child wants to use TikTok and you're happy for them to do so, it's crucial to talk about the potential risks in this type of app. For example, ensure they understand not to share any identifying personal information – and that they realise they could be exposed to inappropriate content. Thinking critically about what they see on TikTok can help children become generally more social media savvy.

READ THE SIGNS

If you're concerned that your child might be spending too much time on TikTok, or that they've been emotionally affected by something inappropriate or upsetting that they've seen, it's important to know how to spot the possible signs. Increased irritability and a lack of concentration are potential red flags, as are failing to complete homework or regularly not eating meals.
